3. Representations received

3.1 Details of the representations made are notified to applicants on receipt by the Licensing Authority using a pro-forma. A summary appears below:

- a) One (1) representation was received from Sussex Police, Brighton & Hove Division detailing concerns in relation to crime and disorder.

4. Commentary on licensing policy

- 4.1 The following extracts from Brighton & Hove Licensing Policy are considered relevant to this application and numbered as they appear in the policy:

General

- 1.2 The licensing objectives are:-
- a) prevention of crime and disorder;
 - b) public safety;
 - c) prevention of public nuisance;
 - d) protection of children from harm.
- 1.3 Each application will be given individual consideration on its merit. Nothing in this policy shall undermine the right of any individual to apply under the terms of the Act for a variety of permissions and to have any such application considered on its individual merits. Similarly, nothing in this policy shall override the right of any person to make representations on an application or seek a review of a licence or certificate where provision has been made for them to do so in the Act
- 1.14 Licensing law is not the primary mechanism for the general control of nuisance and anti-social behaviour by individuals once they are away from the licensed premises and, therefore, beyond the direct control of the individual, club or business holding the licence, certificate or authorisation concerned. Licensing is about the control of licensed premises, qualifying clubs and temporary events within the terms of the Act, and the conditions attached to licences, certificates and permissions will be focused on matters which are within the control of the licensee and will centre on the premises themselves and their immediate vicinity. When considering these terms and conditions the licensing authority will primarily focus on the direct impact of the activities taking place at the licensed premises on members of the public living, working or engaged in normal activity in the area concerned.

In respect of the prevention of crime and disorder

- 2.2 The licensing authority acknowledges that training and good management play a key part in preventing alcohol and drug related crime. The authority recommends that all licensees of on-licensed premises attend training programmes which will raise their awareness of the issues relating to drugs and violence in licensed premises, and that suitable training be extended to all bar staff and door staff so that drug dealers and users will be deterred from using licensed premises for illegal purposes and that incidents of violence in licensed premises will be reduced.
- Licensees are also encouraged to attend training programmes to help identify children at risk and issues of basic child protection.

2.3 It is expected that the designated premises supervisor (DPS) will spend a significant amount of time on the premises. When not on the premises it will be essential that the DPS is contactable, particularly should problems arise with the premises.

2.4 The cumulative impact of licensed premises on the promotion of the licensing objectives is a matter which the licensing authority can take into account. This should not, however, be confused with 'need' which relates more to the commercial demand for a particular type of premises. The issue of 'need' is therefore a matter for the market to decide and can, in some circumstances, be a matter for planning consideration; need therefore does not form part of this licensing policy statement.

The licensing authority may receive representations from either a responsible authority or an interested party, (both of which are defined in the Act), that the cumulative impact of new licences is leading to an area becoming saturated with premises of a certain type, making it a focal point for large groups of people to gather, and thereby creating exceptional problems of disorder and nuisance over and above the impact from the individual premises themselves. In such cases the issue of cumulative impact can be taken into account when considering the individual merits of an application.

Any objection to a licence application on the grounds of cumulative impact must be supported by clear evidence that one or more of the Licensing Objectives are likely to be undermined.

The licensing authority will not operate a quota of any kind, which would predetermine any application, nor will it seek to impose general limitations on trading hours in particular areas. Instead, regard will be given to the individual characteristics of the premises concerned within a given area. It is recognised that pubs, nightclubs, restaurants, hotels, theatres and other clubs may all sell alcohol, serve food and provide entertainment but with contrasting styles and characteristics. Proper regard will be given to those differences and the differing impact they are likely to have on the local community.

2.5(a) Diversity of premises

This attempts to ensure that there is a mix of the different types of licensed premises, particularly in areas where there is a high density of such premises. It will provide resilience against changing trends and attract a more diverse range of customers from different age groups, different communities of interest and with different attitudes to alcohol consumption. It gives potential for positively changing the ambience of the city or an area of it. This in turn may have a positive effect in reducing people's fear of crime and in increasing the number of evening visitors to the city centre. The Community Safety Strategy recognises that too many single uses in a confined area and patrons turning out onto the streets at the same time, may create

opportunities for violent crime and public disorder and therefore encourages mixed use venues, varying hours of business and a wider age balance.

2.5(b) Geographical spread

Spreading the siting of large venues (those with a capacity in excess of 250 people) across the city reduces the problems of dispersing large numbers of people leaving premises in close proximity at the same time. Taxi and bus queues can be flash points for public disorder and violence. A good geographical spread coupled with increased taxi ranks and bus stops near venues reduces waiting time and the potential for crime and disorder.

2.5(c) Care, control and supervision of premises

The effective management and supervision of a venue is a key factor in reducing crime and disorder, both within it and outside. The Police will consider the applicants, objecting to the application where appropriate. The Police will suggest crime prevention measures in relation to, for example, the internal layout of the premises, close circuit television, help points, lighting and security staff. The Police may ask for conditions which support such measures to be imposed when planning or licensing applications are granted, e.g. type of licence, capacity, opening time restrictions.

2.6 Shops, stores and supermarkets which provide alcohol for consumption off the premises: the normal scenario will be to provide for sales of alcohol at any time when the retail outlet is open for shopping unless there are very good reasons for restricting those hours.

2.8 Enforcement of legal requirements to prohibit sales of alcohol to those intoxicated will be supported.

Strategic Integration

6.5 Specific conditions may be attached to premises licences to reflect local crime prevention strategies. Such conditions may include the use of closed circuit television cameras, the provision and use of shatterproof drinking receptacles, drugs and weapons search policy, the use of registered door supervisors, specialised lighting requirements, hours of opening.

6.7 This policy avoids duplication with other regulatory regimes wherever possible.

7.2 The Licensing Committee represents the general interests of a community. In determining what conditions should be attached to licences and certificates as a matter of necessity for the promotion of the licensing objectives. The Licensing authority is aware of the need to avoid measures which deter live music, dancing and theatre - such as

imposing indirect costs out of proportion to the income of the licence holder and to the risks presented. Only necessary, proportionate and reasonable licensing conditions should impose any restrictions on such events.
