# Proposal

---

- The applicant has written to the LPA to request to vary the heads of terms of application BH2014/00331 by way of removing the requirement for a temporary replacement doctor's surgery to be provided until the development is ready for occupation.

# Conclusion and Planning Balance

- A letter from the Clinical Commissioning Group (CCG) has been provided which indicates that the closure of the surgery has not resulted in a dispersal pressures as this area of the city is well serviced by GP practices and branch surgeries. Furthermore, the CCG letter confirms that there is no demand for an additional surgery at this site and there are no plans to commission additional health services in the vicinity of the site.
- Given the fact that the surgery has been demolished for over four years with no harmful impact of the surrounding area, the removal of the requirement for a temporary replacement surgery is considered acceptable.

**Recommend: Approval**
