# Key Considerations in the Application

---

- Design and Appearance
- Impact on Amenity
- Sustainable Transport
- Improvements to existing health and care facilities at the site

# Conclusion and Planning Balance

- The proposals would provide 7 additional bedrooms to the existing care home and would improve the communal areas.
- The design of the extensions have been improved and incorporated advice given at pre-application stage
- The extensions are sited a sufficient distance from neighbouring properties and would not cause any impact on amenity
- A revised car parking plan is to be secured by condition.
