Key Considerations in the Application

- Principle of development and proposed uses
- Design, appearance and heritage having regard to impact of proposals on Grade II* Listed building
- Impact on residential amenity
- Sustainability

Conclusion and Planning Balance

- The principle of the comprehensive repair and refurbishment of an ‘at-risk’ Listed building to bring it back into use is supported by national and local planning policies.
- The Lido will still continue to provide leisure and community uses, and the other uses such as a café and events space are complementary to the leisure and community function. The principle of the use of part of the building as a co-working office space has already been established by the planning consent in 2016 (BH2016/05288) and will help improve the long-term viability of the Lido.
- The proposed external and internal alterations are generally supported by both Historic England and the Council’s Heritage section, subject to the receipt of further details which will be secured by condition.
- The proposed development would therefore comply with the NPPF, relevant policies within the City Plan Part One, the emerging Policies in the City Plan Part 2, and retained policies in the Brighton & Hove Local Plan (2005), and the approval of planning permission is recommended subject to the conditions above.
