Key Considerations in the Application

- Design and appearance
- Impact on neighbour amenity

Conclusion and Planning Balance

- The proposal is to use the building for activities which would be compatible with the residential setting (i.e. home office, hobby room etc), and which would not give rise to harmful noise/disturbance.
- The height, bulk, positioning and footprint of the building means that there would not be any significant harm to occupiers of Highcroft Lodge in terms of loss of outlook, overshadowing or increased sense of enclosure.
- The building would be well designed, and would be of a scale which would be subordinate to the adjacent Highcroft Lodge. Details of materials would be secured by condition.
