

Hello Emily,

Am I too late to call this one in?

I would like to do so and oppose the application on the basis that it can only be accessed via a relatively narrow strip of hard standing that existing residents use for car parking and is also where their garages are situated.

This would make both the building of the new house and then ongoing access for the house occupier very problematic for local residents.

The house would also impact severely on the privacy of existing residents.

Regards

Councillor Peter Atkinson
North Portslade
