

# Our journey ahead...

Where will care and support services be in the next five years?

## 1. Signposting

Information and advice to enable people to look after themselves and each other, and get the right help at the right time.

## 2. Stronger communities

Help people to build support networks by working in partnership with local health & community services.

## 3. Getting people on the right track

Preventative services that help people stay independent for longer, and support them to recover after illness.

## 4. Citizens will be in control of their own care

When people do need extra care and support, services will be personalised, and more joined-up around individual needs.
