Key Considerations in the Application

- Principle of development
- Design and appearance
- Impact upon neighbouring amenity
- Sustainable transport
- Previous approved and extant permission

Conclusion and Planning Balance

- Proposal accords with Policy EM4 of the Brighton and Hove Local Plan
- There is an extant permission for an identical development which must be given significant weight
- Office use only can be secured by condition
- The proposed design is appropriate considering the siting to the rear of the main buildings on Clarendon Villas
- Unlikely to result in significant noise disturbance, overlooking, overshadowing or overbearing impact for neighbouring residential properties
- Vehicle movements likely to be reduced compared to the potential of the existing use as 6no garages
- Shared access route considered acceptable
- Overall, the proposed development is considered to accord with the development plan and approval is therefore recommended.
