Appendix 4 – Summary of New and Revised Policies

New Policy	Policies to be Replaced	Reasons for Review
RW0	n/a – new policy	To provide support for construction techniques that use fewer aggregates in order to reduce
		the transportation and use of minerals and mitigate against climate change.
RW1 - Sustainable Locations	WMP7 and 7a - Sustainable	To clarify an ambiguity in the existing policy requirements.
for Waste Development	Locations for Waste Development	
RM1 – Provision of	WMP11 – Provision of Aggregates	To reassess the approach to aggregates provision in line as the permitted aggregate reserves
Aggregates		in the Plan Area will be exhausted before the end of the Plan period. Following consideration
		of reasonable alternatives, the new approach does not allocate any additional sites, but will
		continue reliance on the existing extraction site, imported material and recycled aggregate.
RM2 – Provision of Clay	WMP13 – Provision of Clay	To allocate a new area for clay extraction at the existing Aldershaw Quarry for a submission to
		the 'call for sites'.
RM3 - Safeguarding Minerals	WMP14 - Safeguarding Minerals	To consolidate the policy requirements into a single policy for added clarity.
Resources	Resources	
	SP8 - Minerals Safeguarding	
	Areas for land won minerals	
	resources within the Plan Area	
RM4 - Prior Extraction of	n/a – new policy	New policy requirement to require extraction of mineral resources prior to alternative
Minerals		development proposals commencing within Minerals Safeguarding Areas in some
		circumstances.
RM5 - Safeguarding Wharves	WMP15 - Safeguarding Railheads	To incorporate reference to the 'agent of change' principle introduced in the revised National
and Railheads	and Wharves	Planning Policy Framework
	SP9 - Safeguarding wharves and	
	railheads within the Plan Area	
RM6 - Safeguarding facilities	SP10 Safeguarding facilities for	To remove the list of safeguarded facilities from the policy wording and instead illustrate on
for concrete batching, coated	concrete batching, coated	the Policies Map, to enable easier updating.
materials manufacture and	minerals manufacture and other	
other concrete products with	concrete products within the Plan	
the Plan Area	Area	
RM7 - Minerals Consultation	SP11 Minerals Consultation Areas	To revise the extents of Mineral Consultation Areas to take into account the constraints of
Areas		each site.
RD1 - Environment and	WMP27 - Environment and	1. To add a requirement for a net gain in biodiversity.
Environmental Enhancement	Environmental Enhancement	2. To update the policy requirements to take into account the judgement in Wealden District

	Council v. Secretary of State for Communities and Local Government, Lewes District Council
	and South Downs National Park Authority [2017]
