

**NOTICE OF MOTION****CONSERVATIVE GROUP****POOR CONDITION OF PAVEMENTS IN BRIGHTON & HOVE**

This Council:

1. Reaffirms concerns that have been raised in the past about excessive use of glyphosate herbicides;
2. Notes widespread condemnation from residents and visitors alike of the current state of the pavements in Brighton & Hove;
3. Further notes that allowing weeds to take hold discourages active travel; raises the chance of injury to members of various vulnerable groups; increases costs for maintenance and compensation claims; and fosters a sense of neglect in the public realm; and
4. Calls for an urgent Officer Report to be presented to Environment, Transport & Sustainability Committee that sets out how pavements in the city can be rapidly brought to a high standard without excessive use of glyphosates.

Proposed by: Cllr Nemeth

Seconded by: Cllr Peltzer Dunn
