

# Brighton Multicultural Women's Cycle Club

## Supporting information for deputation to ETS Committee

### BMW's cycle storage at Preston Park Velodrome involves:

- installation of a shipping container on the south west side of the Velodrome
- equipping this with bikes and tools
- a team of volunteers to support sessions

### Aim:

- provide storage and maintenance facility for BMWs Cycle Club
- enable women to support each other to learn to cycle and gain confidence cycling
- promote active and sustainable travel and help the City to become carbon neutral
- empower communities, particularly (but not exclusively) ethnic minorities and women
- build social connections, reduce isolation and increase independence
- provide volunteering opportunities and increase employability

### We have consulted with:

- Friends of Preston Park
- Sussex Cycle Racing League\*
- Preston Park Youth Cycle Club\*
- The Cricket Club\*

\*these groups have their own 20ft shipping containers at the south-west corner of the Velodrome. They need the storage in these for their own purposes.

### PHOTOS

*An aerial view of the Velodrome. The proposed shipping container would be sited among the trees outside of the south-west corner of the cycle track, just north of Lime Tree Walk.*
