

**DEPUTATIONS FROM MEMBERS OF THE PUBLIC**

A period of not more than fifteen minutes shall be allowed at each ordinary meeting for the hearing of deputations from members of the public. Each deputation may be heard for a maximum of five minutes following which the Cabinet Member may speak in response. The deputation will be thanked for attending and its subject matter noted.

**(a) Deputation concerning parking Zone A and the proposal to extend this to Tivoli Crescent - to complete the 'missing link – Mr Mark Dyson (Spokesperson)**

- In 2007, the residents of Tivoli Crescent voted to be excluded from the proposed Zone 'A' parking scheme, and the Council granted them their wish. Unfortunately, residents did not appreciate the full implications of this, which only became apparent with the introduction of Zone A in October last year.
- As the parking zone lies at both ends of Tivoli Crescent, the road is completely overflowing, at all times of the day with commuter parking. This results in significant nuisance, inconvenience and health and safety risks to the residents.
- A survey of residents in Tivoli Crescent was carried out in December of last year, 2 - 3 months after the introduction of the new Zone A. The survey asked residents if they still wanted to be excluded from Zone A - or alternatively, for the scheme to be extended to include Tivoli Crescent.
- A response was elicited from 89% of the dwellings in Tivoli Crescent with a massive 93% of these households now wishing to be included in the scheme.
- Tivoli Crescent residents have learnt to their cost that their original desire to be excluded from the scheme has proved to be disastrous and by an overwhelming majority, now wish to be included in Zone A as soon as is practically possible.
- Including Tivoli Crescent in Zone A logically completes the road network of Zone A - by filling in the missing link between Woodside Avenue and The Drove, and should have minimal effect on the other excluded streets, given the road layout.
- Unrestricted roads further out from Tivoli Crescent would also have the opportunity to comment on this proposal to include Tivoli Crescent when the traffic order is advertised

Tivoli Crescent Residents Association  
April 2010

**(b) Deputation concerning occupants of 137-147 Preston Road – Ms Hengameh Dadkhah (Spokesperson)**

On behalf of residents in Dyke Road Drive, I am asking the Environment Cabinet Member to act urgently and help to evict the travellers who have moved to the property 137-147 Preston Road, Brighton around mid March 2010. Houses/flats in Dyke Road Drive back to this property.

This site consist of Anston House unoccupied building no 137-139 Preston Road and 141-143 and 145-147 which are the site with fences around it and no building. The travellers have moved into the site with their caravans, cars and other transports. It started with one or two cars in front of the Anston House and gradually more and more travellers are arriving. They are also now parking their caravans right at the back of the properties in Dyke Road Drive.

We believe that the owner of the property is aware of the situation and not quite sure whether they are taking any legal action to evict them or have actually invited them to stay. There is lock at the gate and it seems that the travellers have a key to get in and out of the site.

This site is not suitable for travellers for the following reasons:

**1-There is no sanitation provision**

We believe that the travellers are using open sanitation and putting our health at risk. With summer round the corner, the smell, fly and other insects being attracted to the open sanitation will put our health at risk and also the health of residents of Brighton and Hove.

**2-Burning woods and other materials creating environmental pollution and hazard**

Travellers are burning woods and other materials creating smoke. At times we can not even open our windows towards Preston Park any more. We are not sure of the nature of the materials they are burning, whether the materials are of hazardous nature and would cause short or long term health problems.

**3-Creation of rubbish**

Travellers are creating substantial amount of waste which are not being cleared and will soon result in rats and other rodents coming to our property from the site.

**4-Safety**

Our garden fences in line with most houses are not very high, travellers can climb over them at any time. We do not feel secure in our own home. We can not let our kids play in our own garden without watching over them.

Below are a few examples of incidents that we residents have to put up with on daily basis since travellers have moved to this site:

**Wednesday 21 April 2010**

Burning woods and other materials sent smoke and smell that the residents had to keep their windows closed. Following morning inside our houses smelled like a barbecue house.

**Thursday 22 April 2010**

Joy riders driving their motorbikes around the site during the day creating noise and dust. Again we had to keep our windows shut.

**Monday 26 April 2010**

Travellers' dogs had jumped over one of the garden fences and carried on jumping from one garden to another. We could only keep our doors to garden locked and watched in despair.

**Wednesday 28 April 2010**

Another night of burning woods and other materials.

**Thursday 29 April 2010**

Travellers' dogs had been barking non-stop from 7pm till 8pm. I called the police and reported it. I could not see if something serious had happened.

We are also asking for a long term solution for this site. What can be done to stop travellers moving back to this site.

Several unsuitable planning applications have been put to the council since 1994. Last year a substantial number of mature trees were cut down. Again last year there was stabbing on this site.

Please act urgently to evict the travellers from this site and look for a long term solution for both Anston House unoccupied building no 137-139 Preston Road and the sites 141-143 and 145-147 Preston Road.
