Rec#	Recommendation	Response	Date
1	In regulating and licensing the use of public highways the council should seek to strike a balance between the needs of competing interests. However this should be based on the premise that there should be free, unfettered access for all to public highways in Brighton and Hove.	Agreed	Ongoing
2	The panel supports the use of licensing zones for traders' items in specific areas of the city. Subject to its other recommendations, the panel endorses the policy regarding traders' items that was agreed at the meeting of Licensing Committee (Non Licensing Act 2003 Functions), Friday, 24 April, 2009 (Agenda Item 33).	Agreed	Already in place
3	In addition to the licensing criteria above businesses seeking to place an A Board on public land should be required to: a) Evidence that there is insufficient private curtilage for A board to be kept off the public highway b) Commit to ensure the A board will be placed on an agreed area on the pavement marked by the council.	Agreed	Undertaken during new licensing period for April 2010 - Mar 2011. Each licensed area is currently shown on shop display diagram/photo rather than marked on ground. Will need to explore best type of markings for licensing year 2011-12
4	Clusters of A boards should be combined into a single standard advertising board. The council should provide these in a single City-wide design livery that can be added to by individual retailers.	Recognise the issue the recommendation seeks to address. In taking this forward however the cost of the board should be met by traders. Legal advice is that the design/wording of the board would need to be carefully thought out as the council cannot be seen to be promoting any particular business. Suggest that this is progressed with recommendation 15. Practicalities of this need to be explored further including what can be reasonably accommodated in narrow streets, regular maintenance, etc. With regards to planning considerations, a single standard board advertising businesses in a street or block may be acceptable, subject to their number, size and location and approval of advertisement consent. A single hanging sign to each business premises, rather than an A board, may also be acceptable, subject to their size, appearance and location, the detailed policy guidance in Supplementary Planning Document SPD07 Advertisements and, where necessary, approval of advertisement consent.	possibilities for new licensing year 2011- 2012

5 Businesses with tables and chairs on the public highway should be required to partition their

external seating from the footway. Areas licensed for tables and chairs should be marked

For new licensing

vear April 2011

Agreed with the addition that this should not apply in exceptional

circumstances. Exceptional circumstances would apply to small single

9	Communal bins should not be permitted to obstruct public highway to less than 1.3 meters (as per the minimum agreed in recommendation 2). Where this is the case communal bins should be relocated. Accessibility of the public highway should be of greater importance when deciding where to locate a communal bin.	Agreed. Communal bins are sited with a minimum of 1.3 m gap on the highway. Consideration is given to visibilty of road users and access when sites for communal bins are considered. Where possible, these are not located in parking bays.	Ongoing
10	Whilst parking was raised a number of times throughout the review members felt that this was too big an issue for this panel to look at. It is however recommended that where changes are made to parking regulations accessibility issues are considered as part of consultations	, , ,	Ongoing
11	The panel considers a robust, consistent enforcement regime of street access issues vital. Consideration should be given to utilising additional staff resource in monitoring and enforcing the streetscape. There should be given increased cross directorate/team working with officers able to undertake multiple enforcement regimes. This could include consideration of the use of civil enforcement officers, cityclean officers and PCSOs.	working may take longer as may be affected by outcome of intelligent	Initial meetings to take place soon in- house and with the police
12	Communication and coordination between officers undertaking work that affects the street-scene needs to improve. There appears to be a lack of coordination between different parts of the council that place items on the highway, license items to be placed on the highway and use items placed upon the highway. Overall responsibility for highway accessibility should be given to a named officer.		

13 Where traders' items are in breach of license condition two written warnings should be issued. Upon the third occasion of breach of license immediate confiscation by council officers should be undertaken.	Agreed for majority of A-boards but magistrates' court & rescinding of licensing is also an option and may be a better route for certain placements. Legal advice is needed around the removal of perishable goods. Storage and removal costs will be an issue for larger placements - the council does not have the facilities to remove or store numerous tables and chairs. Any enforcement actions are subject to the council's corporate enforcement policy which provides for a range of sanctions in order that officers can use the most appropriate enforcement for the circumstance.	In place where practical to do so
The panel welcomes the willingness of Openreach to work with the council on the siting of utility boxes and supports the idea of creating a list of 'hotspots' where the re-siting of an existing box would be beneficial. The panel believes this could be usefully extended to other utility providers that locate items on the pavement.	Agreed. Highways & Planning are currently working with Openreach regarding the siting of new cabinets.	In progress
15 Considerable good will and a desire to work together was evident from traders and disability group representatives. The panel believes this should be acted upon and the council should facilitate on-going dialogue between different groups to review: a) Alternative forms of advertising that will reduce the impact on street accessibility and could become part of the city's culture b) How the city's café culture can meet the needs of mobility impaired residents and visitors		Within next 12 months
16 Implementation of recommendations arising from the scrutiny review should be monitored by OSC after six and twelve months with an invitation extended to those involved in this review to comment upon any impact.	Agreed	6 - 12 months
