

Children & Young People Trust Board – 19 January 2009

Note: Councillors' written questions, as detailed, will be taken as read at the meeting. The Councillor asking the question may ask one relevant supplementary question, which shall be put and answered without discussion. One other supplementary question may be asked by any other Member of the Council, which shall also be put and answered without discussion.

(A separate addendum with the written answers will be circulated at the meeting).

Question from Councillor Mccaffery

- i) This Authority was one of the first to integrate health, education and children's social services in order to deliver better services to children. How do the Board members inform themselves and how are they informed of how effectively each part of the service is working and whether budgets for each part of the service are set at a level to maintain physical and mental safety of vulnerable children?

Questions from Councillor Fryer

- ii) When inviting youth centres to complete a survey regarding community buildings which fed into the My Space funding bid, what effort was made to explain what this survey was about and what opportunities it might lead to?
- iii) The Tarnerland playbase failed its recent Ofsted report last summer due to health and safety issues arising from the building. It was given 9 months to resolve this problem. Whilst £50,000 has been allocated to carry out these works nothing has happened yet. Please could you give details on how this problem will be resolved by March 2009 when Ofsted is coming to re-inspect the premises?
