WRITTEN QUESTIONS

(i) New England Road railway bridge- Neil Schofield

Despite recent works the railway bridge over New England Road continues to be infested by feral pigeons, leading to mess on the pavements and a deeply unpleasant environment for pedestrians passing underneath the viaduct. Moreover the lighting has deteriorated, creating an environment that is unwelcoming and gives rise to public safety concerns. Will the Council task a named Officer to co-ordinate management of this space across the various interested Council departments to ensure that this area is kept clean and safe, and whose duties will include ensuring that Network Rail pigeon-proof the bridge properly?
