

Although a formal committee of the city council, the Health & Wellbeing Board has a remit which includes matters relating to the Clinical Commissioning Group (CCG), the Local Safeguarding Board for Children and Health Watch. Papers come from a variety of sources. The format for Health & Wellbeing Board papers is consequently different from papers submitted to the city council for exclusive city council business.

Addendum Joint Strategic Needs Assessment Update Appendix

Rough sleeping and single homeless:

Earlier draft in papers. Final draft attached.

Dementia: Page 2, paragraph 2

Updated to reflect more recent dementia prevalence data from the Quality and Outcomes Framework 2013/14 published 28/11/2014:

Dementia has been included in the Quality and Outcomes Framework (QOF) measures for GP practices since 2006/07. Since that time the proportion of the GP registered population on local practice dementia registers has increased slightly from 0.3% to 0.5% in 2013/14 (reflecting an increase in actual numbers from 937 to 1,454).¹ This compares to 0.6% in England and in the South of England Commissioning Region. It is also lower than the 12 other Surrey and Sussex Commissioning Groups. QOF data is not adjustable by age, so care should be taken when making comparisons to other CCGs, particularly those in Surrey and Sussex, as Brighton & Hove has a lower proportion of people aged 65 or over.²
